FLAD Call Girl 105C has been a favorite all along. She is dark in color, fancy, very stout, with a moderate birth weight of 83 pounds. She is the first progeny to sell off her sire FLAD Boogyman 28A, the 2014 CWA National Grand Champion Bull. Her paternal grand dam, FLAD 110P is a true foundation cow in our herd. She was the 2010 Reserve Champion Female at CWA, raised us herd bulls, put a string of top end females with fantastic udders in our herd and has our number one bull calf (again) in the pen this year who will be on display at CWA. FLAD Call Girl 105C will be shown along-side her dam TIP 93W at CWA. We purchased her dam TIP 93W from the Thackerays out of the CWA sale as a bred heifer and she has been nothing short of awesome giving progeny with power, style and great udders. She will be our main donor cow in 2016. Both Call Girl's sire FLAD Boogyman 28A and her dam TIP 93W will be at CWA this year. Not too often you have a chance to add a female to your herd where the breeders are so confident in her pedigree that the dam and sire are both on display at the top cattle show in Canada.
